

Support Medical Marijuana In Wisconsin

"I am begging you ladies and gentlemen to be open-minded.

Just think about it. Tomorrow it could be you, your children, your parents, you never know.

You could get a disease, a syndrome, you could get hit by a car, anything.

And when it happens you hope there is something out there that's going to help you."

"Cheryl's Heart" by Jacki Rickert, in memory of -- IMMLY Founder Jacki Rickert Cheryl Miller.

How to help support medical marijuana in Wisconsin

In Addition to filling out the postcards enclosed in this flyer, there are many things you can do to raise awareness about medical marijuana.

Knowledge is power. Educate yourself about the history of marijuana use, its prohibition, and common myths surrounding the plant.

Speak Out. Use every opportunity you can to voice your opinions. Write elected officials and let them know how you feel (after all, they work for you). Let your friends and family know your opinions; strive to dispel any myths surrounding marijuana. Write letters to the editor of your local papers and foster a healthy, fact driven debate.

Get Involved. Visit these web sites to get more involved with groups working to legalize medical Marijuana in Wisconsin:
- The National Organization for the Reform of Marijuana Laws - winorml.org - madisonnorml.org- Is My Medicine Legal Yet? immlly.org

Let us be your mail carrier. Once you fill this postcard out and mail it to us, we will hand deliver it to your Assembly Representatives and Senators.

I am writing to ask you to support Assembly Bill 740.

A November 2002 Time/CNN poll shows that 80% of Americans support the legalization of marijuana as medicine. A 2002 WI Trends survey found that 80% of Wisconsin residents support medical marijuana legalization. In addition, the Wisconsin Nurses Association supports access to therapeutic marijuana.

AB-740 is similar to legislation passed in 10 other states. We need your help to make WI the next state to ensure that our sick and dying are freed from living in fear of raids and incarceration.

Please support AB-740.

Why should Medical Marijuana Be Legal?

For thousands of years people have benefitted from the medicinal properties of marijuana. In the modern world, medical marijuana could help to treat many illnesses, including the following:

- Migraine
- Eating Disorder / Loss of Appetite
- Epilepsy
- Multiple Sclerosis
- Cancer / Tumors
- Ehlers-Danlos Syndrome
- AIDS
- ALS (Lou Gehrigs Disease)
- Asthma
- Post Traumatic Stress Disorder
- Attention Deficit Disorder
- Chronic Pain
- Crohn's Disease
- Arthritis
- Bi-polar Disorder
- Muscle Spasm
- Nausea
- Glaucoma
- Rheumatism
- Herpes
- Cystic Fibrosis
- Insomnia
- Clinical Depression

Despite the plethora of beneficial uses, medical marijuana remains illegal, leaving patients who would benefit from its use with two choices:

1. Continue to suffer with their currently ineffective treatments; or
2. Be forced to resort to illegal activity to obtain the medicine that will help them, putting themselves at risk for;
 - criminal records, prosecution, fines and jail time
 - the risks, inflated costs, and quality issues that can be associated with obtaining a prohibited substance.
